

New EBS Joint Masters Degree between EBS Paris and EBS London

EBS Diplôme Master

A new Masters degree initiative is now available between EBS Paris and EBS London under the aegis of the EBS International (EBSI) network.

Enhance your Qualifications Portfolio

This initiative is designed to give a competitive advantage to students aiming to enter the international employment market.

Admissions Requirements

This short articulated programme is available for EBS Paris students who have successfully completed their Master 1 and Master 2 curricula and for EBS London students immediately following successful completion of both the BA and MA/MSc/MBA programmes.

One Semester in EBS Paris

EBS London and EBS Paris mutually recognize their last 2 years curricula, MA/MSc/MBA and Master (1 and 2) programmes respectively. Therefore, in successfully completing the first semester of the Master 2 programme at EBS Paris, EBS London students would be awarded the Master 2 qualification validated by the French State. A typical qualifications profile of successful students would therefore be: BA, MA, Diplôme Master 2.

This unique Masters degree provides EBS London students with the opportunity not only to increase their qualifications portfolio effectively, but also to broaden their Masters educational experience drawing on the expert teaching available at EBS Paris whilst undertaking study in either English or French or English and French.
